Time: **9:31**

By: **JUSTIN KYLE P. ASNE**
Local Legislative Staff Officer I

Dear Hon. Goking;

Warmest greetings!

Respectfully endorsed to your good Office is the attached proposal concerning the **reinstatement of the Business Permit Registration Plate (Business Plate) requirement for all registered business establishments in Cagayan de Oro City**, together with the relevant endorsements and supporting documents pertaining thereto.

The proposal seeks to restore the Business Plate as a visible means of identifying duly registered business establishments and supporting the City's regulatory and consumer protection functions. As discussed in the attached request, the previous Business Plate requirement was repealed under **City Ordinance No. 14198-2021**, and its proposed reinstatement would require the enactment of a new ordinance or the appropriate amendment to the Cagayan de Oro Local Revenue Code.

The attached documents further set out the legal and policy considerations supporting the proposal, including the City's general welfare and regulatory powers, consumer protection, regulatory compliance monitoring, and the need to balance these objectives with the City's continuing commitment to an efficient and business-friendly regulatory environment. The proposal likewise recommends consideration of measures to address concerns on cost and administrative burden, including a possible hybrid physical-digital identification system and consultation with relevant stakeholders.

In view thereof, may we respectfully request the **Technical Working Group on Regulatory Reform Team** to undertake the appropriate evaluation of the proposed measure, particularly its regulatory impact and consistency with the City's existing policies and laws, and to take such appropriate action as may be necessary for its consideration and possible legislative action.

We trust in the expertise of the Technical Working Group and the Committee on Trade and Commerce in facilitating a balanced review of the proposal, taking into consideration both **consumer and public protection objectives and the City's Ease of Doing Business commitments**.

For your information, evaluation, and appropriate action.

Sincerely,

JOHN W. ASUNCION
