Project : Proposed Construction of the Cagayan de Oro City Hall of Justice

Re : City Resolution No. 15781-2026 dated June 22, 2026

Dear Mr. De San Miguel:

We write with reference to your good office's letter dated June 29, 2026 regarding City Resolution No. 15781-2026 dated June 22, 2026.

The Office is aware and very understanding of the present conditions of the displaced trial courts of Cagayan de Oro City, which are currently occupying Goldridge Building, Materson Avenue, Cagayan de Oro City, as its temporary office space pending the completion of the construction of the Hall of Justice in Cagayan de Oro City (CDO HOJ). As such, the Office is currently exerting its best efforts to expedite the completion of the said project.

May we respectfully inform your good office that the proposed CDO HOJ shall house twenty-eight (28) trial courts, namely: fourteen (14) Regional Trial Courts; one (1) Family Court; eight (8) Municipal Circuit Trial Courts; and five (5) additional courts allocated for future expansion, as well as space for other court offices and facilities such as the Offices of the Clerk of Court, among others, with a separate parking building.

Considering the magnitude of the project, the Office had to engage a consultant for the preparation of the Detailed Architectural and Engineering Design (DAED). After procurement, the DAED consultancy was awarded to Enrique O. Olonan and Associates (EOOA) and a Notice to Proceed (NTP) was issued on April 4, 2023.

For this engagement, EOOA has been preparing the DAED, other plans and drawings, technical specifications, and the budgetary cost estimates for the construction of the CDO HOJ.
