I. BACKGROUND

The Northern Mindanao Federation of Transport Service Cooperatives (NOMFEDTRASCO), representing local transport cooperatives operating within Cagayan de Oro City and surrounding areas, respectfully submits this proposal for the phased, harmonized, and monitored implementation of the Cagayan de Oro City Local Public Transport Route Plan (LPTRP) through a Common Corridor Approach.

The proposal is submitted in response to concerns arising from the implementation of Section 120 of Cagayan de Oro City Ordinance No. 10551-2007, particularly concerns involving route operations, passenger movement, route overlap, loading and unloading, terminal connectivity, and the interaction between local transport services and existing inter-LGU transport operations.
