The Bugo Greymar Homeowners Association, Inc. - BGHOA, represented by the undersigned President, Mr. Mark N. Raboca, respectfully submits this formal appeal on behalf of all officers and members of the Association.

NATURE OF THE APPEAL This appeal pertains to a parcel of land designated and recognized as the only remaining open space within Bugo Greymar Subdivision. It is the collective position of the BGHOA that this area is intended for the common use, welfare, and benefit of all homeowners and residents of the community.

It has come to our attention that a structure/building is currently being erected on the said open space under the initiative of the Bugo 18th Council.

GROUND FOR OPPOSITION The Association hereby expresses its strict opposition to the said construction for the following reasons:

The subject property constitutes the sole open space left in the subdivision, which is vital for community activities, emergency assembly, and the general welfare of residents;

The utilization of the open space for a different purpose is contrary to the original subdivision plan and the intended purpose for which it was set aside;

and No prior consultation or clearance was secured from the BGHOA, the duly recognized homeowners association of the area.

PRAYER In view of the foregoing, we respectfully and earnestly request the intervention of your good office and the Honorable Members of the Bugo 18th Council to:

Immediately halt any ongoing construction within the said open space; and Conduct a dialogue/hearing with the BGHOA officers to amicably resolve this matter and uphold the rights of the homeowners to their designated community open space.

Attached herewith are pertinent documents in support of this appeal, including but not limited to:
