By: JUSTIN KYLE P. ASNE
Local Legislative Officer

PROPOSED ORDINANCE NO. 2024-_____

AN ORDINANCE REGULATING THE CONSTRUCTIONS OF HUMPS, SPEED BUMPS OR ANY PROTUBERANCE ON PUBLIC ROADS WITHIN THE TERRITORIAL JURISDICTION OF CAGAYAN DE ORO CITY, PROVIDING PENALTY FOR VIOLATION THEREOF, AND FOR OTHER PURPOSES

Whereas, Section 16 of Republic No. 7160, also known as the General Welfare Clause of the Local Government Code, requires local government units to exercise the powers expressly granted, those necessarily implied therefrom, as well as powers necessary, appropriate, or incidental for its efficient and effective governance, and those which are essential to the promotion of the general welfare;

Whereas, Section 447(v) of RA 7160, provides that the Sangguniang Panlungsod shall: "(v) Regulate the use of streets, avenues, alleys, sidewalks, bridges, parks and other public places and approve the construction, improvement, repair and maintenance of the same ... xxx;

Whereas, speed bumps are traffic management devices that regulate the speed of the passing vehicles; thus, promotes responsible vehicular travel for commuters and protects crossing pedestrians from speeding vehicles;

Whereas, it can be noticeably observe that there is a proliferation of unauthorized and substandard speed bumps in city streets especially in subdivision roads that leads to unnecessary traffic jams, vehicular damage, and obstruction to utilities and other important facilities;

Whereas, while the DPWH under its Department Order No. 52, Series of 2023, prohibits humps, whether permanent or temporary, in ROW of national highways, there has been no sincere effort, to date, to regulate the construction of speed bumps in city roads;

Whereas, the Department of Interior and Local Government (DILG) incorporates speed humps onto roads as a traffic calming instrument that's used to make bikers and pedestrians safer on the road;

Whereas, although speed bumps compel drivers of motor vehicles to slow down and avoid accidents, the flip side is that there road humps are sources of some accidents on the road and pose significant danger because their placement is not strategically located, physical design is poorly constructed, does not have appropriate pavement markings and not accompanied by warning signage;

Whereas, there is a need to regulate the construction of speed bumps, which are being done haphazardly and without professional expertise;

NOW, THEREFORE:

BE IT ORDAINED by the 20th Sangguniang Panlungsod (City Council) of Cagayan de Oro in session duly assembled that:

SECTION 1. Definition of Terms:

- (a) Speed bumps – permanent traffic management devices, protruding from the pavement in a parabolic shape, used for lowering the speed of motor vehicles along specific street sections;
- (b) Ruble strips – Transverse Rumble Strips (TRS), a traffic-calming device or sleeper lines designed to warn drivers to slow down by causing tactile vibration and audible rumbling of the vehicle;
