2nd floor,

Legislative building.

City hall,

Cagayan de Oro City

Cc:

Honorable Director Ellaine Josephine Depaur
Department of the Interior

Department of the Interior and Local Government (DILG)
Cagayan de Oro City

Greetings of peace and goodwill!

The Homeowners Association of Zone 2, Greymar Subdivision, Barangay Bugo, represented by the undersigned, Mr. Mark N. Raboca, President of the Association, respectfully write this heartfelt appeal for your kind consideration.

A building is being constructed within the supposed dedicated open space located inside the Barangay Hall premises. We respectfully appeal that the proposed building not be erected in this particular open area for the following reasons:

1. The Zone 2 community no longer has any other available open space that can be utilized for public and community activities.
2. The said open space has long served as a valuable area for residents, particularly students and young people in the vicinity, providing them with a safe place for recreation, gatherings, and other beneficial activities.
3. The preservation of this open space contributes to the welfare, convenience, and overall quality of life of the residents and households within our community.

Attached are the following documents :

- a) No building permit document (from Office of the City Building Official)
- b) The home owners associations found out there was no such public hearing conducted for the intent to put up a new building in the supposed open space area for Bugo Greymar Home Owners Association.
- c) Zoning certificate (from city planning)

In view of the foregoing, we earnestly seek your intervention to stop the construction pending resolution of our petition. We firmly believe that preserving this open space will greatly benefit the Homeowners Association and all the families residing in our community.

We trust in your compassion, wisdom, and commitment to the welfare of your constituents. We sincerely hope that our humble request will merit your favorable action.
