Subject: Request for Immediate Investigation and Site Inspection of Ongoing Land Development Adjacent to Terry Hills Subdivision

Dear Sir/Madam,

Greetings!

On behalf of the Terry Hills Subdivision Homeowners Association, Inc., we respectfully bring to your attention an urgent matter that has greatly affected our community.

On the evening of Wednesday, several residents of Terry Hills Subdivision experienced flooding after a period of heavy rainfall. Based on our observations, the flooding was caused by the obstruction and covering of existing drainage canals due to the ongoing land preparation and development of the property adjacent to our subdivision, allegedly owned by the Velez family. Because the natural drainage was blocked, rainwater accumulated and overflowed into residential areas, resulting in flooding that affected several homes and caused inconvenience and damage to our residents.

In this regard, we respectfully request your office to conduct an immediate investigation and site inspection to determine the cause of the flooding and to verify whether the developer has secured all the necessary permits, licenses, clearances, and approvals required prior to the commencement of the land development and earth-moving activities. We also request that your office determine whether the ongoing works comply with applicable laws, environmental regulations, drainage standards, and local ordinances.

Furthermore, we respectfully express the strong opposition of our association and affected residents to the continuation of the development until the issues concerning drainage, flooding, environmental impact, and public safety have been fully addressed and appropriate corrective measures have been implemented. We believe that any development should not compromise the safety, welfare, and properties of the surrounding communities.

To support this request, we are attaching photographs showing the flooding experienced by our residents, as well as the present condition of the ongoing land development and the affected drainage canals.

Considering the urgency of this matter, we earnestly request your immediate intervention and appropriate action to prevent further flooding and protect the lives, properties, and welfare of the residents of Terry Hills Subdivision.

We trust in your prompt attention and look forward to your favorable response.
Thank you very much.

Respectfully yours,

DIONNIE P. KASANA
President HIUSA

Republic of the Philippines
OFFICE OF THE CITY COUNCIL
City of Cagayan de Oro
