MEMORANDUM

No. MA-2786-2026

Republic of the Philippines
OFFICE OF THE CITY COUNCIL
City of Cagayan de Oro

To **ALL DEPARTMENT MANAGERS/CHIEFS OF OFFICES**

Subject **ENERGY EFFICIENCY AND CONSERVATION MEASURES**

Date **17 August 2026**

RECEIVED

AUG 19 2026
Time: 8:34
By: JUSTIN RYLE P. ASNE
Local Legation

This pertains to the continuing implementation of Energy Efficiency and Conservation Measures at City Hall, consistent with recommended guidelines.

To promote responsible energy use, reduce electricity and fuel consumption, minimize operational costs, and strengthen the City Government's commitment to energy efficiency and conservation, while ensuring that all City Hall offices and personnel are properly guided and prepared for the Energy Audit scheduled on August 20, 2026, you are hereby directed to strictly implement the following Energy Efficiency and Conservation Measures:

A. Electricity Conservation Measures:

1. Proper scheduling and usage of all Lighting Fixtures within offices;
2. Switch-off lights from 12:00 noon to 1:00 p.m. for all offices without heavy client traffic during noontime; Schedule the operation of Air-conditioning units from 8:00 AM to 4:30 PM only;
3. Set the temperature rating for all air-conditioning units (ACUs) to 24°C only;
4. Discourage the use of non-essential devices and appliances during office hours (Electric Stoves, Rice cookers, Water Heaters, etc.);
5. Unplug all electronic devices and appliances before 5:00 PM (Except for all devices necessary for security purposes such as CCTVs, Emergency Lights, etc.);
6. Switch-off or set to sleep mode all electronic devices, laptops, computers, and other office equipment when not in use;
7. Encourage personnel to use stairways when moving between floors and reduce elevator use if applicable.

B. Fuel Conservation Measures:

1. Implement trip consolidation and carpooling for personnel moving along common routes and reduce vehicle deployment;
2. Optimize routes by using shortest routes available with the least traffic congestion;
3. Strictly avoid the idling of vehicles when waiting for passengers and shut-off engines to minimize fuel consumption.

For your guidance and compliance.

Atty. ROY HILARIO P. RAAGAS
City Administrator
